## Processing Requirements

In order to process a Fuller Fast-App, Student Financial Services requires students to satisfactorily complete and submit any outstanding required forms or documentation.

The order in which a Fuller Fast-App is processed is based on when the request was received, the loan period for the loan, whether the student is a new or returning student and the date all outstanding items are completed.

Generally students who submit a Fast-App and have completed all requirements will have their loan processed in 30 days from the date the Fast-App was received OR the date all requirements were complete, whichever is later.

Students who submit a Fast-App for summer or fall quarter loans after declining a loan offer will have their loan requests certified after all accepted loans for that quarter have been processed.

Additionally, if students wish to have their loan request processed during a specific quarter, they must submit their Fast-App and satisfy all outstanding requirements according to the deadlines below:
